Meeting Summary

Sophia had a strong two weeks: every goal was met on six of the last ten school days, and her partner-work notes highlight real growth in turn-taking. This packet gathers the family-shared highlights and the signed daily logs so the conference can focus on what is working at home and school.

Evidence notes (3)

Jul 18, 2026

Family visible

progress

growth moment / positive

Sophia met every goal today without a reminder — the strongest day this window. Momentum is clearly building after the routine reset.

Jul 22, 2026

Family visible

observation

behavior observation / neutral

Sophia needed one prompt to rejoin group work after the transition, then stayed on task through the activity. Transitions remain the growth edge.

Family visible

supports

intervention / positive

Tried a two-minute warning before cleanup with Sophia; the switch happened without protest. Keeping this support in place for the rest of the term.
